**Fred DeGrandis update**

December 18 - **New Patient Transfer Process Leverages Health System Strengths**

New regional hospital transfer processes are providing our community caregivers with a great opportunity to act as a team in caring for patients. As our community hospitals have excess capacity, the new transfer policy helps the Cleveland Clinic main campus hospital remain open, leverages the strengths of our regional hospital services, helps doctors in the system secure referrals, and process for all regional hospitals.

**Red Carpet Nursing Clinical Rotations**

Hillcrest Hospital is rolling out the red carpet for our nursing students during their clinical rotations. Red Carpet Clinical Rotations is an exciting new program designed to heighten the clinical rotation experience by providing students with:

- specialized learning opportunities,
- social events,
- interviewing opportunities,
- and high touch contact with a variety of clinical leaders.

Our goal is to create superb clinical experiences for our nursing students. All nurses at Hillcrest are committed to mentoring and educating future caregivers and are dedicated to create a meaningful learning experience for them.
